

American Humane's Basic Animal Emergency Services Training

Stanwood, WA
February 27 and February 28
The Noah Center

Who should attend:

Anyone interested in the welfare of animals following a disaster, professionals trained in disaster response, Emergency Medical Services personnel, firefighters, animal shelter staff, Animal Control officers, Veterinarians & Vet technicians, and animal handlers/trainers.

Topics include:

Day 1

- Intro to American Humane
- Perspective on national disaster response and relief
- Incident command system
- Structure of response team
- Reporting roles
- Incident specific response and interagency cooperation
- Disaster Public Relations 101
- Animal First Aid

Day 2

- Personal Preparedness
- Temporary and co-location sheltering
- Local response coordinated with national team
- Small animal handling
- Large animal handling
- Mock shelter set up and response

Learning Objectives:

To develop the skills to respond to, care for and shelter animals during times of disaster, whether at the local or national level.

Tuition: \$125 non-members (\$106 for [members](#)). Training materials provided. Certificate presented upon completion.
